7.42L — TOP 75%
The results of a Automation testing job is tracked in a database for engineers to review so they can fix the defect. There are times when the position can seem monotonous, but the focus of your work will constantly change to different aspects of the program, alleviating some of the repetition. You also get an early look at the latest in technology and have a hand in making sure that a program is as defect free as possible. Finally, with Manual being an area that will always grow, Automation testers have one of most secure jobs in the tech industry.

Why Should You Choose
UnCodemy?

Top MNCs

Uncodemy partners with top-tier companies to ensure that its students receive instruction from industry experts with hands-on experience in the field of Automation Testing.

No. 1 Institute for the Automation Testing Course

Uncodemy in Noida stands out as the premier Automation testing course provider, featuring industry-experienced mentors from major corporations. With a commitment to 100% placements, it offers live project experiences, flexible online & offline training modes, and accelerated certification options catering to working professionals.

About Courses

Uncodemy follows a structured approach and comprehensive curriculum. Here are some key reasons why learning Automation Testing from a training program can be beneficial:

1. Access to experienced instructors who can provide personalized guidance and support.

2. Exposure to industry-relevant tools and technologies.

3. Hands-on experience with real-world datasets and projects.

4. Networking opportunities with other students and professionals in the field.

5. A structured curriculum that covers the key concepts and skills needed to succeed in Automation Testing.

6. Access to job placement assistance and career counseling.

About Industry Expert Trainers

Uncodemy partners with seasoned industry professionals to provide students with first-hand knowledge and real-world applications in the realm of Automation Testing. These experienced instructors share their practical insights, equipping students not only with theoretical knowledge but also with the practical skills needed to succeed in the field.

About Certificate

Uncodemy is recognized by top industry bodies such as ISO and NASSCOM and is also endorsed by Skill India, a government initiative aimed at boosting skills development in the country. The certifications provided by Uncodemy are highly valued by employers, as they signify that the candidate has completed a rigorous program and has the necessary skills and knowledge to excel in the field.

Doubt Session

Uncodemy facilitates doubt sessions where students can receive individualized attention and clarification on challenging concepts. These sessions are led by experienced instructors who provide comprehensive explanations and examples, ensuring that students leave the session with a thorough understanding of the material.

Grooming Session
Soft skills training to improve communication, networking, and leadership skills. Identifying and highlighting transferable skills that may not be obvious.

CV building

Helping students build a killer resume. Ensuring that the resume includes relevant keywords to help it stand out in applicant tracking systems. Overall, it's about helping students make their resume shine and stand out from the competition.

Interview session
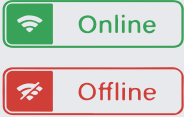

The goal is to prepare students for the job interview process, giving them the chance to practice their communication and interpersonal skills, and helping them feel more confident and prepared for the real thing.

Mock interview

Uncodemy uses mock interviews in its IT training program as a tool to help students refine their interview skills and prepare for job interviews in the tech industry. The mock interviews are designed to replicate the pressure and format of a real interview, without the actual job at stake.

Key Features

Live industry-based projects	100% placement assistance	CV building	Confidence Building
Online & offline	weekly & weekend classes	Interview Session	Mock Interview Session
Course Completion certificate	Recorded Class	Group Discussion	Communication Skills
Interview Session	6 Monthe internship	Access to Class & Training Until Placement

- Selenium versions: Selenium IDE, Selenium RC (1.0), Web Driver (2.0)
- Why use Selenium, Eclipse and Java?
- Firefox addons (Firebug, FirePath)
- CHROME Inspector
- Internet Explorer Developer Tools
- Browser Document Object Model (DOM)
- Inspecting elements in Firefox
- HTML language tags and attributes
- Installing Java
- Installing Eclipse

XPATH expressions, First Selenium project –

- Create XPATH locators to identify page elements
- Absolute and non-absolute XPATH expressions
- Objects with same id/xpath selector
- Handling objects with dynamic attributes
- First Selenium projects

Selenium WebDriver

- Why WebDriver?
- Architecture of Selenium Webdriver
- Downloading WebDriver Jars and configuring in eclipse
- Drivers for Firefox, IE, Chrome
- HTML Unit driver and desired capabilities

Find HTML elements

- Find an HTML Element
- Find multiple HTML Elements
- Implicit Waits
- Explicit Waits

Manipulate HTML elements

- Interact with Links, Buttons, Input boxes, Radio buttons, Checkboxes
- Interact with list boxes and dropdown lists
- Read the title and URL of the page
- Check if an element is present, selected and enabled
- Get the value and attributes HTML elements

CORE- JAVA BASICS

- Variables
- Types of variables constant
- Data types
- Operator
- String
- Array
- Character
- Boolean number
- Loop (if- else while, switch)
- Oops
- Classes
- Objects
